2. The Work

19. Deviation from Plans and Specifications

No deviation shall be made from the plans and/or the specifications, if any, without the prior written approval of District.

20. Unity of Plans and Specifications

The plans and specifications, if any, are one document, and any work shown or mentioned, in one and not in the other, or vice versa, shall be furnished or performed as though mentioned or shown in both.

21. Relocation of Utilities

As required by Section 4215 of the California Government Code, District will assume responsibility for the removal, relocation, and protection of main or trunk-line utility facilities existing on the construction site, if such facilities are not shown in the plans and specifications, and District shall compensate Contractor for the costs of locating and repairing damage to such facilities not due to the failure of Contractor to exercise reasonable care.

Nothing herein shall be deemed to require District to indicate the presence of existing service laterals or appurtenances whenever the presence of such utilities on the site of the construction project can be inferred from the presence of other visible facilities, such as buildings, meter and junction boxes, on or adjacent to the site of the construction.

If Contractor, while performing the Work under this Agreement, discovers utility facilities not identified in the Contract Documents, including the plans or specifications, Contractor shall immediately notify the Contract Administrator or Project Manager. District shall not be liable for Contractor's performance of unauthorized work.

22. Notice of Discovery of Hazardous Waste or Unusual Conditions

- A. Contractor shall promptly, and before the following conditions are disturbed, notify District in writing, in the event Contractor encounters, after excavating to a depth of greater than four (4) feet, any of the following:
 - 1. Material that Contractor believes may be hazardous waste, as defined in section 25117 of the Health and Safety Code, which is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law; or
 - 2. Subsurface or latent physical conditions at the site differing materially from those indicated in the Contract Documents; or
 - 3. Unknown physical conditions at the site of any unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in the Work provided for in this Agreement.
- B. District shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, or cause a decrease or increase in Contractor's cost of, or time required for performance of any part of the Work, an adjustment, excluding loss of anticipated profits, will be made and this Agreement will be modified by a Change Order. District will notify Contractor of District's determination as to whether or not an adjustment of this Agreement is warranted.
- C. In the event a dispute arises between District and Contractor as to whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in Contractor's cost of, or time required for, performance of any part of the Work, Contractor shall not be excused from any scheduled completion date provided for by this Agreement, but shall proceed with all Work to be performed under this Agreement. Contractor shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between Contractor and District.

23. Subcontracting

The provisions of Sections 4100-4114, inclusive, of the Public Contract Code regarding subcontracting shall apply to this Agreement, and Contractor represents that it will comply with all provisions therein. For the purposes of this Agreement, no subcontractors are authorized to perform any portion of the Work.

24. Additional Work

District reserves the right to make such alterations, deviations, additions to, or deletions from the plans and specifications, including the right to increase or decrease the quantity of any item or portion of work or to delete any items or portion of work, as may be deemed by the Road and Safety Officer to be necessary or advisable, and to require such additional work to be required for the proper completion of the whole Work contemplated.

Any such changes will be set forth in a written Contract Change Order (Change Order) which will specify the additional work, adjustment of performance time, if any, and basis for additional compensation, if any. Any Change Order shall not become effective until approved by the Road and Safety Officer.

25. Termination by District for Convenience

District reserves the right to terminate this Agreement at any time upon determination by District's representative that termination of this Agreement is in the best interest of District. District shall issue Contractor a written notice specifying that this Agreement is to be terminated.

Upon receipt of said written notice, Contractor shall stop all work under this Agreement except: (1) work specifically directed to be completed prior to termination, (2) work the Inspector deems necessary to secure the Project for termination, (3) removal of equipment and plant from the site of the Work, (4) action that is necessary to protect materials from damage, (5) disposal of materials not yet used in the Work as directed by District, and (6) clean up of the site.

If this Agreement is terminated for District's convenience as provided herein, all finished or unfinished work and materials previously paid for shall, at the option of District, become its property. Contractor shall be paid an amount which reflects costs incurred for satisfactory work provided to the date of notification of termination. In addition, Contractor shall be paid the reasonable cost, as solely judged by District, and without profit, for all work performed to secure the Project for termination.

26. Termination by District for Cause

If Contractor is adjudged as bankrupt or insolvent, or makes a general assignment for the benefit of its creditors or if a trustee or receiver is appointed for Contractor or for any of its property, or if Contractor files a petition to take advantage of any debtor's act, or to reorganize under the bankruptcy or applicable laws, or on more than one occasion fails to supply sufficient skilled workmen or suitable material or equipment, or on more than one occasion fails to make prompt payments to subcontractors for labor, materials, or equipment, or disregards the authority of District's representative, or the Engineer, if one is appointed, or otherwise violates any provision of the Contract Documents, then District may, without prejudice to any other right or remedy and after giving Contractor a minimum of ten (10) days from delivery of a written termination notice, terminate the services of Contractor and take equipment and machinery thereon owned by Contractor and finish the Work by whatever method District may deem expedient. In such case, Contractor shall not be entitled to receive any further payment until the Work is finished.

Without prejudice to other rights or remedies District may have, if Contractor fails to begin delivery of materials and equipment, to commence Work within the time specified, to maintain the rate of delivery of material, to execute

the Work in the manner and at such locations as specified, or fails to maintain a work program which will ensure District's interest, or, if Contractor is not carrying out the intent of this Agreement, an Inspector's written notice may be served upon Contractor demanding satisfactory compliance with this Agreement. If Contractor does not comply with such notice within five (5) days after receiving it, or after starting to comply, fails to continue, District may exclude it from the premises and take possession of all material and equipment, and complete the Work by District's own forces, by letting the unfinished Work to another Contractor, or by a combination of such methods.

Where Contractor's services have been so terminated by District, said termination shall not affect any right of District against Contractor then existing or which may thereafter accrue. Any retention or payment of monies by District due Contractor will not release Contractor from compliance with the Contract Documents.

If the unpaid balance of the Contract Price exceeds the direct and indirect costs of completing the Work, including compensation for additional professional services, such excess shall be paid to Contractor. If the sums under this Agreement are insufficient for completion, Contractor shall pay to District within five (5) days after the completion, all costs in excess of the Contract Price. In any event, the cost of completing the Work shall be charged against Contractor and may be deducted from any money due or becoming due from District.

The provisions of this Article shall be in addition to all other rights and remedies available to District under law.

If after notice of termination, it is determined for any reason that Contractor was not in default, the rights and obligations of the parties shall be the same as if the notice of termination had not been issued. This Agreement shall be equitably adjusted to compensate for such termination.

27. Successors and Assigns

This Agreement shall bind and inure to the heirs, devisees, assignees, and successors in interest of Contractor and to the successors in interest of District in the same manner as if such parties had been expressly named herein.

28. Assignment of Contract

Neither this Agreement, nor any part thereof, or any monies due or to become due hereunder, may be assigned by Contractor without the written approval of District. District may assign this Agreement to a lender, or any third party that assumes the obligations of District hereunder.

29. Amendments

This Agreement may be amended by mutual consent of the parties hereto. Said amendment shall become effective only when in writing and fully executed by duly authorized officers of the parties hereto.

30. Separate Contracts

District reserves the right to let other contracts in connection with the Work. Contractor shall afford all other such contractors reasonable opportunity for storage of their materials, shall provide that the execution of its work properly connects and coordinates with theirs, and shall cooperate with them to the end of facilitating the Work.

31. Indemnity

To the fullest extent allowed by law, Contractor shall defend, indemnify, and hold District and its officers, directors, and employees harmless against and from any and all claims, suits, losses, damages, and liability for damages, including attorney's fees and other costs of defense brought for or on account of injuries to or death of any person, including but not limited to, workers and the public, or on account of injuries to or death of District employees, or damage to property, or any economic, consequential or special damages which are claimed or which shall in any way arise out of or be connected with Contractor's services, operations or performance hereunder, regardless of the

existence or degree of fault or negligence on the part of District, Contractor, subcontractors or employees of any of these, except for the active, or sole negligence of District, its officers, directors, and employees, or where expressly prescribed by statute.

The duty to indemnify and hold harmless District specifically includes the duties to defend set forth in Section 2778 of the Civil Code. The insurance obligations of Contractor are separate, independent obligations under the Contract Documents, and the provisions of this defense and indemnity are not intended to modify nor should they be construed as modifying or in any way limiting the insurance obligations set forth in the Contract Documents.

32. Insurance

In the event Contractor fails to keep in effect at all times insurance coverage as herein provided, District may, in addition to any other remedies it may have, terminate this Agreement upon the occurrence of such event. New certificates of insurance are subject to the approval of District.

ADDITIONAL STANDARDS: Certificates shall meet such additional standards as may be determined by District as essential for protection of District.

COMMENCEMENT OF PERFORMANCE: Contractor shall not commence performance of this Agreement unless and until compliance with each and every requirement of the insurance provisions is achieved.

MATERIAL BREACH: Failure of Contractor to maintain the insurance required herein, or to comply with any of the requirements of the insurance provisions, shall constitute a material breach of the entire Agreement.

CONTRACTOR'S OBLIGATIONS: Contractor's indemnity and other obligations shall not be limited by the insurance required herein and shall survive the expiration of this Agreement.

33. Independent Contractor/Liability

Contractor is, and shall be at all times, deemed independent and shall be wholly responsible for the manner in which it performs services required by terms of this Agreement. Contractor exclusively assumes responsibility for acts of its employees, associates, and subcontractors, if any are authorized herein, as they relate to services to be provided under this Agreement during the course and scope of their employment.

Contractor shall be responsible for performing the work under this Agreement in a safe, professional, skillful, and workmanlike manner and shall be liable for its own negligence and negligent acts of its employees. District shall have no right of control over the manner in which work is done and shall, therefore, not be charged with responsibility of preventing risk to Contractor or its employees.

34. Interest of Public Official

No official or employee of District who exercises any functions or responsibilities in review or approval of services to be provided by Contractor under this Agreement shall participate in or attempt to influence any decision relating to this Agreement which affects personal interest or interest of any corporation, partnership, or association in which he/she is directly or indirectly interested; nor shall any such official or employee of District have any interest, direct or indirect, in this Agreement or the proceeds thereof.

35. Interest of Contractor

Contractor covenants that Contractor presently has no personal interest or financial interest, and shall not acquire same in any manner or degree in either: 1) any other contract connected with or directly affected by the services to be performed by this Agreement; or, 2) any other entities connected with or directly affected by the services to be performed by this Agreement. Contractor further covenants that in the performance of this Agreement no person having any such interest shall be employed by Contractor.

36. Conflict of Interest

The parties to this Agreement have read and are aware of the provisions of Government Code section 1090 et seq. and section 87100 relating to conflict of interest of public officers and employees. Contractor attests that it has no current business or financial relationship with any District employee(s) that would constitute a conflict of interest with provision or services under this Agreement and will not enter into any such business or financial relationship with any such employee(s) during the term of this Agreement. District represents that it is unaware of any financial or economic interest of any public officer or employee of Contractor relating to this Agreement. It is further understood and agreed that if such a financial interest does exist at the inception of this Agreement either party may immediately terminate this Agreement by giving written notices as detailed in Article 26, Termination by District for Cause, hereto.

37. Licenses

Contractor warrants and represents that it holds a valid California license pursuant to the Contractors' State License Law (Business and Professions Code Sections 7000, et seq.), that its license is in good standing and that it possesses a license as required by the categories and type of the Work. Copies of Contractor's State Contractors' license must be provided with this Agreement.

38. Business License

El Dorado County's Business License Ordinance provides that it is unlawful for any person to furnish supplies or services, or transact any kind of business in the unincorporated territory of County of El Dorado without possessing

a County business license unless exempt under County Ordinance Code Section 5.08.070. Contractor warrants and represents that it shall comply with all of the requirements of County's Business License Ordinance, where applicable, prior to beginning work under this Agreement and at all times during the term of this Agreement.

39. Cleaning Up

Contractor shall not allow the site of the Work to become littered with trash, rubbish, or waste material, but shall maintain the site of Work in a neat and orderly condition throughout the performance of the Work. At the end of each work day, Contractor shall clean up all debris and waste materials generated by the Work and shall properly dispose of all trash, rubbish and waste materials off site at no additional cost to District.

40. Access to the Work

District, and any state or local authorities having jurisdiction over the Project, shall at all times have access to the Work.

41. Acceptance of Work

The Work will be accepted by District in writing in the form of a Notice of Acceptance signed by the Road and Safety Officer when the whole shall have been completed satisfactorily, as determined by District or its duly authorized representative. Acceptance of the Work shall not constitute an acceptance of latent defects nor relieve Contractor of responsibility for any act or omission which is a violation of this Agreement. District will release retention withheld, if any, thirty-five (35) days after the Notice of Acceptance is recorded.

42. Resolution of Claims

Contractor's attention is invited to Public Contract Code Sections 20104, et seq., for resolution of construction claims, and specifically Section 20104.2. Claims pertaining to this Agreement shall be governed by the provisions of those sections.

Contractor's attention is directed to California Public Contract Code section 9204, which describes procedures for the resolution of claims on public works projects. Among other things, section 9204 requires the claimant to furnish reasonable documentation to support a claim, requires the public entity to respond to the claim within 45 days of receipt of the claim, and allows for the claimant to demand an informal meet and confer conference for settlement of the issues in dispute. For any portion of a claim that remains in dispute, section 9204 requires submission of the claim to nonbinding mediation. Additionally, section 9204 requires the public entity to make any payment due on an undisputed portion of the claim within 60 days of the public entity's written response and to pay interest at the rate of 7 percent per annum on any amounts not paid in a timely manner. The claims procedures described herein and in any other Contract Documents are in addition to the procedures required by section 9204 and, in the event of a conflict between those various procedures, the more stringent procedures will control.

43. Environmental and Toxic Warranty

Contractor warrants that its operations concerning the Project are not and will not be in violation of any applicable federal, state, or local environmental statute, law, or regulation dealing with hazardous materials substances or toxic substances.

44. Guarantee

Final Guarantee: Contractor shall guarantee all materials and equipment furnished and work performed for a period of one (1) year. Contractor warrants and guarantees for a period of one (1) year from the date of Acceptance of the Work that the Work is free from all defects due to faulty materials or workmanship and Contractor shall

promptly make such corrections as may be necessary, including repairs of any damage to other parts of the Work resulting from such defects at no cost to District. District will give notice of observed defects with reasonable promptness. In the event that Contractor should fail to make such repairs, adjustments, or other work that may be made necessary by such defects, District may do so and charge Contractor the cost thereby incurred.

Extended Guarantees: If a guaranty exceeding one (1) year is provided by the supplier or manufacturer of any equipment or materials used in this Project, then the guarantee for such equipment or materials shall be extended for such term. Contractor expressly agrees to act as co-guarantor of such equipment and materials, and Contractor shall supply District with all warranty and guaranty documents relative to equipment and materials incorporated in the job and guaranteed by its suppliers or manufacturers.

Warranty: Contractor warrants to District that materials and equipment furnished under this Agreement will be of good quality and new, unless otherwise required or permitted by this Agreement, that the Work will be free from defects or flaws and is of the highest quality of workmanship and that the Work will conform with the requirements of this Agreement. Work not conforming to these requirements, including substitutions not properly approved and authorized, shall be considered defective.

If within one (1) year from the date of the Acceptance of the Work or such longer period of time as may be prescribed by law or regulations or by the terms of any applicable special guarantee required by the Contract Documents, any work is found to be defective, Contractor shall promptly, without cost to District and in accordance with District's written instruction, correct such defective work. If work is rejected by District, defective material or work will be removed from site and replaced with non-defective materials or work. If Contractor is unable to promptly and properly correct any defective work, District may at its option have the work corrected by such other means as District deems appropriate and hold Contractor liable for all direct, indirect and consequential costs caused by such defective work. Said warranty shall apply to all work found to be "defective" which is attributable to the quality or quantity of the materials used, the quality of the workmanship or for performance of this Agreement.

Bids will be received by the Road and Safety Officer at the CRCSD park located at the middle fork of the Cosumnes River on Morning Canyon Drive between 4:45 p.m. and 5:00 p.m. on August 15, 2025. All bids must be received no later than 5:00 p.m. on August 15, 2025, at which time bids will be publicly opened and read by the Road and Safety Officer.

Bids are to be submitted for the entire work. The amount of the bid for comparison purposes will be the total of all the items.

The Bidder shall set forth for each unit basis item of work a unit price and a total for the item, and for each lump sum item a total for the item, all in clearly legible figures in the respective spaces provided for this purpose. In the case of unit basis items, the amount set forth under the "Item Total" column shall be the product of the unit price bid and the estimated quantity for the item.

The low bidder will be determined by evaluating all bids based on the lowest total bid for the sum of Base Bid - Schedule A, Additive Alternate - Schedule B, Additive Alternate – Schedule C, Additive Alternate - Schedule D, and Additive Alternate – Schedule E. - (b) (Decimal Errors) If the product of the entered unit price and the estimated quantity is exactly off by a factor of ten, one hundred, etc., or one-tenth, or one-hundredth, etc., from the entered total, the discrepancy will be resolved by using the entered unit price or item total, whichever most closely approximates percentage wise the unit price or item total in the Department's Final Estimate of cost.

If this Proposal is accepted and the undersigned Bidder shall fail to enter into the Contract and furnish the two bonds in the sums required by the State Contract Act, with surety satisfaction to the Cosumnes River Community Services District within eight (8) days, not including Sundays and legal holidays, after the Bidder has received notice from the Cosumnes River Community Services District that the Contract has been awarded, the Cosumnes River Community Services District may, at its option, determine that the Bidder has abandoned the Contract, and thereupon this Proposal and the acceptance thereof shall be null and void and the forfeiture of such security accompanying this Proposal shall operate and the same shall be the property of the Cosumnes River Community Services District.
